March 3, 1992

Dr. Alan Wolffe and Dr. Dan Gottschling
Building 6, Room 131
National Institutes of Health
Bethesda, MD 20892

Dear Alan and Dan:

I am pleased to respond positively to your invitation to participate in the FASEB 1993 meeting on Chromatin and Transcription. Science is moving at such a pace in this field that the Gordon Conference in even-numbered years is too infrequent and too broad in areas addressed to allow the interactions that move science forward. The first meeting was one of the best I have been to in many years and I have no doubt that the second will be equally successful.

Sincerely yours,

Bob
